ABOUT ME

I am a passionate software developer with a strong focus on building efficient, scalable and innovative solutions. My expertise spans multiple programming languages, frameworks and tools, allowing me to create applications that enhance user experiences and streamline processes.

I thrive on problem-solving and enjoy tackling complex challenges with logical, clean and maintainable code. Whether it's developing web applications, backend systems or mobile solutions, I ensure that my work is optimized for performance and functionality.

Beyond technical skills, I value collaboration, continuous learning and staying up to date with industry trends. I am dedicated to refining my expertise and bringing creative solutions to life. Driven by curiosity and a commitment to excellence, I aim to contribute meaningfully to every project I take on.

EXPERIENCE

Buildlink

Contributed to BuildLink's construction company website, focusing on responsive design and user engagement as a frontend developer.

SpotOn

Contributed to SpotOn (a parking finder app) focusing on responsive design, mapping, and real-world user engagement as a full stack developer.

InternIn

Developing an app connecting students looking for internships and employers as a full stack developer

Smart Farms

Currently building Smart Farms, a drone-powered precision agriculture platform as a full stack developer

EDUCATION

ORDINARY LEVEL

2019 - 2022

Mt St Mary's High

Deepening academic expertise and building career development. 11 O level passes including maths, english and computer science

ADVANCED LEVEL

2023 - 2024

Mufakose High 2

Gaining a strong academic foundation and skills. 3 A level passes including maths and computer science

SOFTWARE DEVELOPMENT

2025 - 2026

Uncommon.org

Currently pending completion at Uncommon Organisation, where I am gaining hands-on experience and practical skills in software development. I also volunteered teaching youth coding lessons to children.
